

Your Story in the Book

For Ryu, from Jeff

The book is real, brother. **Vacation Rentals That Pay You** launches on Amazon this month — and Lookout Lodge is all over it.

You're in it because your deal is the best negotiation in the whole book, and your twelve-week market analysis is literally the process I tell every reader to copy. Chapter 5 is built on it. Before it goes live, I want you to see every place you appear, word for word, and sign off — or tell me to change anything. Your call completely.

Where you appear

You're mentioned across seven chapters. Here are the passages that carry your story; the rest are one-line references back to these.

1. Chapter 2 — where readers meet you:

Then there's Lookout Lodge, a separate deal in another West Virginia town. It belongs to my business partner Ryu, who found his market through systematic analysis, no guessing, no hype, and negotiated a \$170K manufactured home with seller financing: \$15K down, 0% interest, \$1,000 a month going straight to principal. From June 2024 to June 2025, its first year live, the home grossed \$83,937.81. Gross, not take-home. And of the three West Virginia homes I just described, it has been the most successful.

2. Chapter 5 — your market-analysis process, taught as the model:

My business partner Ryu sat down with a laptop and a spreadsheet and did something almost no investor bothers to do. ... Ryu had never lived in that town. He didn't need to.

The chapter then walks readers through "Ryu's Full Market-Analysis Process" — your twelve weeks, spreadsheet to the June 2024 launch, step by step, with the summary line: "Ryu turned 12 weeks, spreadsheet to launch, into \$83,937.81 in his first year live. Repeatable, not lucky."

3. Chapter 9 — the negotiation scene (the big one):

Picture my business partner Ryu across the table from a retiring homeowner in small-town West Virginia. The house, a manufactured home he'd name Lookout Lodge, is worth about \$170K. The owner doesn't want to stage it, list it, show it, or wait months for a bank-approved buyer. He wants to be done.

Ryu doesn't open with a bigger check. He opens with a better structure: \$15,000 down, and the seller holds the note at 0% interest. Ryu pays \$1,000 a month, principal only. No bank. No appraisal contingencies. No agent taking 5–6% off the top. The seller gets predictable monthly income and a clean exit. Ryu gets control of a \$170K asset for \$15K.

Then Ryu put the furniture and setup on 0% business credit cards and let the market he'd carefully chosen do the heavy lifting. In its first year live, June 2024 to June 2025, Lookout Lodge grossed \$83,937.81.

Notice something. The gap between Ryu and everyone still "saving up" was never money. It was strategy.

(Right after this the book is straight with readers: your 0% note is called “a top-1% outcome, not the template,” so nobody thinks it's the standard deal.)

4. Chapter 18 — the community scoreboard:

Ryu's Lookout Lodge: \$83,937.81 gross in year one on 0% seller financing with \$15K down, the strongest of our three West Virginia homes. Sometimes the best leverage is a motivated seller, not a bank.

5. **Smaller mentions:** Chapter 3 (your payment as the “Under Budget” example), Chapter 7 (seller financing, with the honest caveat that deals like yours take patience), Chapter 9's funding list and closing pep talk (“Ryu didn't wait until he had \$170K. He had \$15K and a structure”), Chapter 18 (“Ryu didn't wait for permission”), and the Conclusion's recap line.

What the book does NOT include

First name only — no last name, no photo, no town name for Lookout Lodge (just “another West Virginia town”), no address, nothing about your life or money beyond this deal.

The questions

1. Are you good being in the book at all?
2. Are the numbers exactly right — \$170K purchase, \$15K down, 0% interest, \$1,000/month principal-only, \$83,937.81 gross June 2024–June 2025?
3. OK with the home being named as **Lookout Lodge** and described as a manufactured home?
4. OK being called my **business partner**, and with your twelve-week analysis being taught as the process readers should copy?
5. Beyond the book, may I tell your story the same way in marketing — posts, podcasts, the Amazon page?
6. Anything you want changed, added, or cut?

If you're good with all of it

Sign below and send this page back — it doubles as the written OK my attorney checklist asks for.

I, _____, consent to the use of my first name and the details shown above in the book *Vacation Rentals That Pay You* and its related marketing.
