

Kitchen Items Checklist

One rule drives every count on this page: you can't sleep twelve and seat four. Twelve sleepers means 12 dining chairs, 12 place settings, and 12 mugs. Write your max occupancy at the top and stock every guest-facing category to that number. Where a count says [MAX GUESTS], that's your number.

Aim for clean and functional, with just enough character: spotless counters with one or two styled touches, like a coffee station, a plant, or a cookbook. Buy like a hotel; if Hilton uses it, it survives guests.

Max occupancy: _____

The Welcome Layer

Small touches get photographed and shared constantly. They’re the difference between a good review and “I have to tell everyone about this place.”

- ☐ Welcome basket with local treats · [ADD YOUR LINK]
- ☐ Handwritten welcome note
- ☐ Firewood for the fire pit, plus a s’mores kit · [ADD YOUR LINK]

Turnover standard for your cleaner: counters spotless, coffee station visible and stocked, dishwasher emptied, place settings and mugs counted to [MAX GUESTS]. The full flow is in the Cleaning and Turnover SOP in this pack.
